

Leading

Vision and Plan (iOS)

Audience

Leaders and educators who are engaged in supporting and enhancing teaching and learning plans with iPad and iPod touch.

Description

Participants consider how iOS devices support and enhance their vision for teaching and learning. They explore features of iPad and iPod touch and determine how these devices can help them increase efficiency, meet their goals and transform learning.

Learning outcomes for this workshop are as follows:

- Explore and understand characteristics of Apple iOS technologies
- Become familiar with how iOS devices can transform teaching and learning
- Determine how iOS technologies can support and enhance existing teaching and learning plans
